

Year 3 Spring Term Homework

Practise spellings at least 5 times each week.

Read at home every night and get a grown up to sign your reading record.

Complete Reading Eggs and Mathletics each week.

Times tables and division facts target

Project expectations

*All projects are to be neatly organised and completed to a high standard.

*You can be as creative as you like. Children need to show that they are using a wide range of materials and techniques. This may comprise of taking photos, drawing pictures, and writing to create posters, 2D/3D models, leaflets, stories etc. Projects may be completed on computers.

How to use the homework mat

* All boxes in **red** must be completed either daily or weekly.

* Children may need some adult support with their projects.

* You only need to complete one project from the three choices below.

This project is due in on **Wednesday 21st March**.

Wellbeing project—

Design a detailed poster depicting the five British Values and how we promote these values at Corpus Christi.

Research British Values online and think about all of the things we do at school to promote them. Your poster should be informative and neatly presented. Your poster could be displayed in school.

Writing project –

Write a creative and imaginative story as an Anglo Saxon child who is going on a journey. Maybe they are going into battle or building a new settlement.

I expect to see the use of an imaginative opening, a range of adverbs of time, powerful adjectives, determiners used correctly and a range of punctuation.

Science—

Our topic this term is plants and rocks. Therefore I would like you to undertake a project where you research more about rocks and plants.

You may choose to create a poster about plants or rocks. You may like to design your own plant and describe its functions and parts. You could collect your own rock display and research the rocks you found. I expect to see the use of research and scientific vocabulary in your work.
